THE Humbolds Register says: Yesterday we met an aged Democrat who has resided in Humboldt a long time. The snows of nearly sixty winters had whit-ened his locks, and the zephyrs of as many summers had fanned his turrowed

cheeks. He said he had voted the Democratic ticket all his life, but if God spared his life until next November he should vote for Hayes and Wheeler. Ot course, this is the truth, or the Regoutan't say so. This is about the time of year to meet these fellows. who, if their lives are spared, will go and drink with you.

Ous Republican friends are making an energetic State canvass. Hon. C. E. De Long and Hon. Thos. Wren, together with Thos. Fitch, will address the citizens of the State at various points throughout the present month. Mr. Wren will speak at Ward on Saturday. Oct. 21st., and will address a Pioche audince on Monday, the 23d inst.

Duning the recent session of the Board of Equalization the following reductions were made:

The Board then adjourned sine die.

We see by the Virginia Chronicle that Col. Ellis commenced to swing around the Democratic circle last Saturday. Acto the programme the nearest be wilget to Pioche will be Ward, where he vill orate on the 21st; the same day that Thomas Wren speaks. Wonder by they he don't show here.

FALL IN LEATHER. - A shoemaker totched a severe drubbing on Meadow Valsy street last Sunday night, for alleged temarks concerning certain ladies. threatens, before his ardor cools to make it hot for the individual who so forcibly championed the ladies' cause.

Tux Board of County Commissioners met yesterday pursuant to adjournment. The following bills were allowed: A. H. Emanuel \$10, Enreka and Palisade R. R. Co. \$3.10, H. S. Crocker \$21.28, Wells, Fargo & Co. \$3, A. L. Bancroft & Co. \$67.50.

HEAVY clouds obscured the sun yesterday afternoon, and mitigated somewhat the unusual heat of the last three days. E. TRIED will arrive by this evening's

District Court.

The District Court met yesterday and transacted the following business, it being the commencement of October term:

The civil and criminal calendars were continued until November 13th. State of Nevada vs. K. J. Hanley;

nolle pros. entered. The the application of Julia Clark to become sole trader continued to Novem-

State of Nevada vs. Geo. A. Davis; arraigned upon two indictments and plead-

Court adjourned to 10 o'clock this morning.

WARD CITY. - Skillman, of the White Pine News, talking about Ward, says: There are about eighty houses finished and in course of construction, and are of good materials and well built. The town generally has quite a business appear-Our impression is that the population and size of the town is too large for the present amount of business transacted there. The most pressing needs of the people of Ward is a postoffice and

a public school.

We are informed that next Spring one or two San Francisco companies will commence mining operations in the district, which will materially increase the business prospects of the now camp.

The population of Ward is computed to be from 500 to 600, but is so scattered that it is difficult for a stranger to believe there are so many people living

NEVADA MEDAL .- We were yesterday shown one of the Nevada Centennial medals made at the Nevada quartz mill in the Centennial grounds, out of pure Nevada silver. It is about the size of a trade dollar, but much thicker. On the obverse side is a good representation of the State seal, with a suitable motto; on the other the figures of two soldiers, with the dates 1776-1876, and a legend around

Burnes.-We noticed eighteen bars of base bullion at John Roeder's last evening, the proceeds of a short run of the Highland furnace. When the new furnace now in process of construction there starts up, and both get to running, we may expect some first class items of a substantial character from our neighboring district.

We see that Skillman, of the White Pine News, has got the Democratic nomination for State Senstor from White Pine county. Good for the aforesaid. By the way, this seems to be a big year for the newspaper men. Bates says virtue and intelligence is beginning to be appreciated. Well, that may be it.

ANDY FIFE arrived in town last Sunday night. He has been swinging around the northern and central parts of the State. He reports things looking solid Austinwards.

THE following persons were admitted to citizenship yesterday: Richard Crow-ley, James Drew, Wm. Cuiverwell, W. H. Donahue, W. P. Bium, Peter Welte

SHELLEY says: "Life, like a manycolored dome, stains the white radiance of Eternity," but Shelley never swung for Pete at an eight-handed game, and then got set back with only a single lead.

EASTERN DISPATCHES.

NEW YORK, Oct. 1.-An informal meeting of the representatives of the trunk callroads involved in the present railroad war was held in this city yesterday, gen-tlemen from the grand trunk from the Baltimore and Onio, the Pennsylvania and Erie roads being present. The ob-j-ct was to settle the differences that led to the war sod the consequent reduction of freight rates. All the gentlemen agreed that a settlement ought to be reached, but in the absence of the rep-

resentatives of the New York Central Railroad nothing definite could be done. Mansfield, Obio, Oct. 1.—The fol-lowing letter from Hon. Charles Francis Adams in response to an invitation to speak here by the Democratic Committee; Quincy, Mass., Sept. 27.—Dear Sir: I have to acknowledge the receipt of your very flattering letter inviting me to address my fellow-citizens of Obio on the

in the condition of my physical health, especially of my voice, I must plead to be excused from undertaking. The service question before us seems to resolve itself into this; whether a genuine re-form of the evils that have been brought on the country under the Republican administration of the last eight years is to be expected by continuing the same influence in power, or whether it would not be wiser to make a complete change and entrust the prosecution of reform to a new set of men. The disclosures of the last few years distinctly prove that while the existing organization has been boney-combed with corruption, which not even the most earnest efforts of the honest men of the Republican party have been effectual to check, it is a plain consideration the majority is not with-drawn from those men who have been most deeply compromised by their conduct before the world, and that it has not been placed in those who appear to have been most strenuous and efficient gentlemen in a policy of reform, I have to say in derogation of Mr. Hayes, but it seems to me at least very singular, that in a crisis like this, a person should have boen selected who has thus far had no record on this subject, and that not one individual who had really committed himself by his previous course to the policy of reform should have been seriously supported. By the meagre vote given Bristow in the convention appears to have been embraced all the enthusiasm and sincerity, working for that one great obj ct. On the other hand, the action of the convention at St. Lones shows who ly a different spirit; not satisfied with making much the strongest declaration of principles on which they propose to proceed, they went on directly to nominate, by a large majority, a man who, by his rgy and vigorous prosecution of the difficult and dangerous task of reform in his own State, bad given the strongest pledge to the country, not simply of his will, but of his power to meet emergency of all sorts. No wonder that all the ferocity of the wolves and tigers who feed upon the off-i of the public crib should be vented on him. Their position only goes to prove the justice of their virulenes. It should be born in the mind of calm observers of the most convincing poof of the wistom of this choice is Mr. Tilden is not called upon to promise what he will do in certain emergencies What he has done is a better plodge to an all the epitnets in the dictionary. Another strong opinion, in my mind, for preferring Mr. Tilden is that the new and clear policy towards the Southern States may be inaugurated free from all obstacles hitherto raised by a class of public men of the North who live by ingratiating themselves with every element remaining among us of the evil passion raised during the war, and so long as this course is tolerated there will be no real barmony between the sections. This is a favorable moment for stamping this spirit of malignity under our feet by selecting a man whose well-known fairness and impartiality may reinstate mutual confidence and ultimately restore unity to the whole people. We need this much in the present low condition of our pecuniary affairs. We need it more to lortify the views of our position by foreign nations; in fact, the time has come for the inauguration of a wholly new and vigorous policy by a thorough, competent and experienced man; that man I hope and believe will be found in Samuel J. Tilden. I remain,

Very truly yours. CHAS, FRANCIS ADAMS.
NEW YORK, Oct. 2 - Julius Biank, a blind professor of music, residing on the top floor at No. 201 West 55d street, shot

his wife, Mary, last night, inflicting a mortal wound. He also shot his child, Amelia, 3½ years old; she died soon after. He then shot and killed himself. The new American Mining Board opened for business at the corner of Nassau and Pine streets to-day. All trans-actions are on a currency basis. The following sales were made this m One bundred California, \$67; 500 Grant. \$3; 100 Justice, \$21. Among the Cali-fornia members of the Board present were M. Hynmann, J. M. Smith, S.

ford and Col. H. Fritz.

MEMPHIS, Oct. 2. - A heavy frost last night, but little damage will probably resuit, owing to the drouth. This relieves all anxiety in regard to yellow fever.

PACIFIC COAST.

San Francisco, Oct. 2.—The entrance to the Lick House is draped with crape and the rooms of the deceased are similarly decked. All the preparations were made yesterday for the fun-rai ceremo-nies of the late Mr. Lick. Early in the afternoon, the Board of Directors of the California Pioneer Association rec ived a note from the Secretary of the Lick Trust, informing them that the Trustees had delegated to them the bonor of taking charge of the obsequies. The cherge was unanimously and thankfully accepted, and a guard of honor at once detail-d_to proceed to the Lick House, rescort them to the Society's hall. soon as the details could be arranged, the escort met at the Lick House parlor, where the body was delivered to them by the Trustees of the fund, who had been guarding them. The remains were then placed in a hearse, and with a num ber of the delegation on either side the carriage moved slowly along Montgamers street to the Hall. On arrival at the Hall door, the procession was met by the Board of Directors and all the members present in the building, when with slow steps between lines of uncovered heads the casket was carried into the assembly hall and placed on a bier appropriately decken, there to rest until the last honors are paid to the deceased. A general invitation to attend was given to the Academy of Sciences, Mechanic's Institute, Chamber of Commerce, the Mayor and Board of Supervisors, the Society of Territorial Pione-rs, the Government present state of the political affairs of the country. It is a long while now eral, Supreme and District Court, the since I have attempted such a thing, and Judges and Justices of the Peace, the

Trustees and ex-Trustees of the Liek trusts, and all societies and organizations, civic and military, and all citizens who desire to testify their respect for the deceased on the day of the funeral. The remains will be placed in a vanit of the new cemetery of the Masonic brother-hood, if consent be obtained, therefore, until arrang mente have been completed for burial. Mr. Murphy. Mayor of San Jose, yesterday called upon the Trustees, and stated that Mr. Lick had expressed to him a desire to be interred on Mount Hamilton, in sight of the Observatory to be erected by the Trustees of the fund. and it is probable that it will be the final disposition of the remains.

It seems to be the general impression among the Trustees and those interested in the Lick estate, that Mr. John Lick will come to this city at once. Telegrams were sent to him yesterday morning by Mr. Schoenwald and others informing him of the death of his father, and from answers received he is expected to be in this city by the first of next week. date of the funeral has been changed from Tu-sday to Wednesday next. San Francisco, Oct. 2.—James Lick

di-d without a struggle at about ono'clock on Sunday morning. A number of gentlemen connected with the management of the trust fund were present at his death, and took charge of the preparations for the funeral ceremonies.

San Francisco, Uct. 2 .- About noon to-day some soldiers di-covered a man near the Presidio with his throat cut. The post surgeon took him in charge and after bandaging his wound sent him to the City Prison Hospital. His name is Ferdmand Newmark and the cause of the attempted smeids is financial trouble. There is but little hope of his recovery

This afternoon Patrick Hogan, wellknown in sporting circles, shot himself in the left breast on North Point street. He was impelled to the act by having tost a large amount at faro on credit a few evenings ago which he had promised to pay at noon to-day. The would will probably prove fatal. Hogan was wellknown among the sporting fraternity of

this State and Nevada.

A few minutes past one o'clock this aft recon the inmat's of the house No. 1421/2 Fourth street heard the report of a pistol apparently in a room on one of the upper floors Attention was called to the room occupied by Bernhard Ben-det; the door was burst-d open and the occupant discovered sitting in an arm chair, holding a cigar in his right hand and in the left a cigar and his bat. Blood was occup from a bullet wound above the right ear, but the man was still breathing. A messenger was sent for a physician but the man died in a few minutes. It appears he entered the house about one o'cock and immediately proceeded to his room and locked the door. It is stated that he attempted snicide a few days since by swallowing a dose of morphine, but his design was discovered in time to prevent serious consequences. The deceased was un-married and a member of the firm of B. Bendet & Co., proprietors of the Empire Match Factory, corner of El-venth and Harrison streets. The Coroner has ex-smined the effects of the decessed but

fails to find any writing which throws any light upon the cause of the suicids. The society of the California Pioneers have secured the Mechanics Pavillion for the funeral services of the late James Lick. The time set is one o'clock on Wednesday afternoon, the 4th inst. The R v. Horatio Stebbins has agreed to pronounce the -logium on the deceased. From the pavillion the funeral will move through the principal streets.

FOREIGN NEWS.

Ragusa, Oct. 2 -The Montenegrin Government is understood to be prepared to accept terms of peace, based an extension of territory, although the London, Oct. 2.-A telegram to the Times from B-lgrade says a dispatch from the headquarters of the army of Moravia appropries that on Friday the Turks from Schiljewatz attacked the Servians on two sides. The fighting continued all Friday and on Friday evening both sides maintained their positions. The fighting was resumed on Saturday. The Servians sustained con-siderable loss. The Russians displayed grea bravery.

The Porte has decided to hold Roumania responsible for permitting the passage through her territory of Russian volunt ers. The Roumanian Premier inter de shortly to proceed to the Russian Conneil. The Porte has informed its representatives abroad that the Turks, because of the incessant artacks of the Servians, will resume the offensive.
